

Vision - Aging with Dignity

Mission

We will establish sustainable transitional living as an option for individuals to maintain independence.

Values

Respect: We believe that every person deserves to be treated with respect, dignity, equality and compassion.

Growth: We value innovative change and sustainable growth that will create an attractive environment for older adults.

Quality of Life: We are committed to providing a safe and secure environment that promotes physical, social and mental well-being.

Engagement: We are committed to engaging residents, families, community partners and health care providers in the provision of services.

Goals and Objectives

Goal 1: Provide housing that is affordable, accessible and supportive

1. To procure the most suitable site in the district for an assisted living facility
2. To secure funding for the construction of an assisted living facility within the district
3. To identify and report on methods of sustaining utilities and resources

Goal 2: Ensure the availability of all necessary programs and services

1. To analyze data and identify gaps in services and programs
2. To maximize the number of partners involved in providing services
3. To create a system of transportation to allow residents to access services outside the building

Goal 3: Create a safe environment in the areas of protection and health

1. To ensure that all safety requirements are met both inside and outside the facility
2. To provide access to educational programs in the area of elder abuse and personal health
3. To coordinate and expand the efforts of service providers

Goal 4: Increase the percentage of seniors remaining in the Rainy River District to 90% or more

1. To identify the possible clients who would be assisted by the Assisted Living Action Group
2. To increase access to information regarding available supports
